INFORMED CONSENT FORM: VIDEO/PHOTOGRAPHIC RECORDING FOR RESEARCH PURPOSES

Project Title: Biomechanical Risk Assessment of Outpatient Physiotherapists

Principal Investigator: Elisa Delli Poggi

---

1. Purpose of the Recording

As part of the research project titled *"Biomechanical Risk Assessment of Outpatient Physiotherapists,"* I hereby consent to be recorded via video and/or photography during my clinical practice. The purpose of these recordings is solely to allow the research team to perform a detailed **REBA (Rapid Entire Body Assessment)** analysis of my posture and ergonomic movements during patient treatment.

2. Confidentiality and Data Protection

In compliance with the **EU General Data Protection Regulation (GDPR 2016/679)**, the following terms apply:

- **Anonymity:** My name and any identifiable personal information will not be associated with the recordings. Each participant will be assigned a unique **ID Code**.
- **Usage:** The recordings will be used exclusively for the calculation of biomechanical scores and the development of ergonomic guidelines.
- **Storage:** All video/photographic data will be stored on password-protected, encrypted, and secure servers, accessible only to the principal investigator and the designated research team.
- **Data Retention:** Data will be stored only for the duration of the study. Once the biomechanical assessment is finalized and the data are processed, the recordings will be permanently deleted/destroyed.

  Data Anonymization and Image Processing: > *"In accordance with strict privacy protocols, all video and photographic material will undergo an anonymization process immediately after the collection phase. Specifically, any identifiable facial features of the participant and/or the patient(s) will be obscured (pixelated/blurred) before the analysis phase begins. These 'de-identified' videos will then be utilized exclusively by the research team to calculate the REBA biomechanical scores. Raw, non-anonymized footage will be restricted to the project manager's access only and will be subject to permanent, secure deletion upon the conclusion of the data processing period."*

3. Rights of the Participant

- **Right of Withdrawal:** I understand that I have the right to withdraw my consent at any time, for any reason, without any penalty or impact on my professional standing.
- **Right to Request Deletion:** I may request the immediate deletion of any recordings featuring my person at any point before the data analysis phase is completed.
- **No Commercial Use:** These recordings will not be used for commercial purposes, social media, or public marketing without my explicit and separate written authorization.

4. Declaration of Consent

By signing below, I confirm that:

- I have been fully informed about the study's objectives and the nature of the recordings.
- I understand how my data will be used and protected.
- I voluntarily grant permission for my clinical activity to be recorded for the purposes described above.

Participant's Name (Print): _____

Date: _____
